FOR RELEASE WEDNESDAY, NOVEMBER 12, 1997

## CertCo to demonstrate certification system with AT&T's SecretAgent product

### Computer Security Institute's 24th Annual Computer Security Conference & Exposition

**WHAT:** CertCo\* will jointly demonstrate their Public Key Infrastructure (PKI) products in conjunction with AT&T's SecretAgent\* desktop security product at the Computer Security Institute's 24th Annual Computer Security Conference & Exhibition. CertCo will show an enhanced version of their multi-step, split-key, Certificate Authority system, chosen as the root certification authority by Visa and Mastercard for Secure Electronic Transactions (SET) credit card application last May. CertCo will also demo their Internet Payment System.

**WHO:** Ed Appel, Vice President

**WHERE:** Sheraton Washington, 2600 Woodley Road, Washington, DC 20008  
Booth's 720 and 507

**WHEN:** Sunday, November 16, 4:00 p.m. - 8:00 p.m.  
Monday, November 17, 10 a.m. - 6:30 p.m.  
Tuesday, November 18, 10 a.m. - 6 p.m.

**WHY:** CertCo's sophisticated technology is the choice of government agencies for high-trust certificates. CertCo provides secure solutions that prevent unauthorized access to information and create trustworthy infrastructure.

### About CertCo

CertCo, a leader in trustworthy electronic commerce provides integrated business solutions to enable the global trust infrastructure necessary to support rapid growth for electronic commerce. The company integrates its experience in cryptography, risk management, law, technology, and the government, with its accomplished management team, to deliver fast, cost-effective and secure electronic commerce solutions.

CertCo is headquartered in New York City, with regional offices in Albuquerque, N.M.; Cambridge, Ma.; Salt Lake City, Utah; Washington, D.C.; and has representatives in the United Kingdom.
